Web GIS Lab 3 – District Dashboard

Oct 13, 2026

Name: Sumaira Andalib **Registration No:** 539913

Course: GIS874 Web GIS — Institute of Geographical Information Systems (IGIS), NUST
Lab: Lab 3 – District Dashboard: layers, controls and interaction

A Leaflet dashboard of Pakistan's 160 districts, building on Lab 2's District Explorer. It offers three switchable basemaps (Carto Positron, OpenStreetMap, Esri Satellite), districts shaded by population density, population shown as proportional circles in their own map pane, hover highlighting with a live info panel, and a coordinate-on-click toggle.
